REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not show the method for processing a current image frame of an image sequence to classify a pixel in the current image frame as a foreground pixel or a background pixel comprising a sequential ordered of limitations "predicting what value the pixel will have in a next frame of the image sequence using the list of actual history pixel values to generate a first pixel value prediction; storing a list of predicted history pixel values representing a history of predicted pixel values of the pixel as determined in previous image frames; predicting what values the pixel will have in a next frame in the image sequence using the4 list of predicted history pixel values to generate a second pixel value prediction; determine an actual value of the pixel in the next frame of the image sequence; and classifying the pixel as foreground pixel if the actual value of the pixel in the next frame of the image sequence differs from any one of the first and second pixel value predictions by more than a threshold value" in combination with other limitations of the claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
